Door cutting, scoring, and Placement – See video for instructions.

Windows – See Video for further instructions

If you do not have a window frame die and need to make them by hand, the following is what you'll need:

- 1 2 x 3" piece of White Cardstock. Label this Window Template

- 7 2-1/2 x 3-1/2 pieces of Decorative paper (Window Trim)

Place your 2 x 3" Window template on top of your 2-1/2 x 3-1/2" window trim. Center Your template. Draw around your template. Cut on your lines. This will then give you 7 window frames.

Note: Reserve all scrap pieces from your cuts. You may want to use this – Discussed in Tutorial.

**** Do not discard your window template after use. You will need this in the tutorial.**
