#### IDEA For Covering the front and back of your album –

I cut the light wooden Design paper into strips to create a framed look. For the Back the frame pieces measure ½ inches; for the Front of the album the frame pieces measure ¾ inches. I adhered down the frame pieces first then I placed a piece of design paper inside the frame measuring 7 ¼ x 8 ¾ inches. This is just an idea for you use if you want to.

*As always thanks for joining me. Have Fun!*
